## The ALS Association of Texas

**Mission:** “to discover treatments and a cure for ALS, and to serve, advocate for, and empower people affected by ALS to live their lives to the fullest”

**Our partner:** Kathryn Berkson-Sheppard  
Managing Director of Development

Predicting Donor  
Retention

The cities donating the most...

	Donation Counts	Total Donations	Average Donation
City			
Houston	4095	2032153.26	496.252322
Washington	63	1113701.11	17677.795397
San Antonio	3755	920452.24	245.127095
Dallas	2540	844373.08	332.430346
Austin	3421	776514.91	226.984773
Grapevine	80	368257.67	4603.220875
Spring	876	272511.37	311.086039
Fort Worth	928	240118.19	258.748050
Friendswood	155	178407.85	1151.018387
Irving	190	168359.13	886.100684

On veteran presence in the top 10 cities...

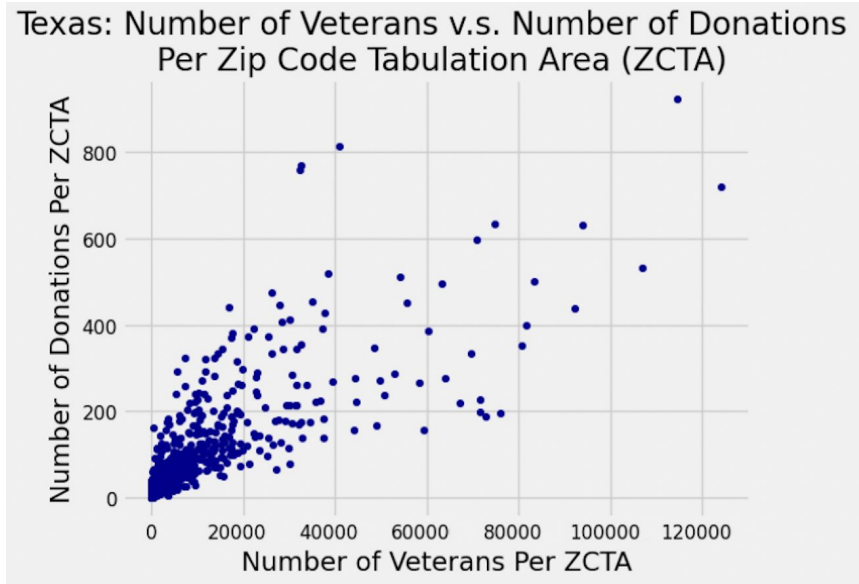

Mean Veteran Population:  
30.795

On the average income per capita in the top 10 cities...

Mean Average Income  
per Capita: \$41.340

## Relationship between In-State Veteran Presence & Donations

A positive relationship exists  
between the number of veterans and  
the number of donations per county

### Top 3 Counties Associated with ZCTAs with Largest Veteran Presence:

Harris County, Houston  
Bexar County, San Antonio  
Tarrant County, Fort Worth

## Logistic Regression Model Using County-Specific Data

Incorporating **county-specific demographic data** improves the logistic regression model's ability to predict **donor retention status** accurately from ~56% to 65%

**Strongest county-specific predictors** for donor retention include:

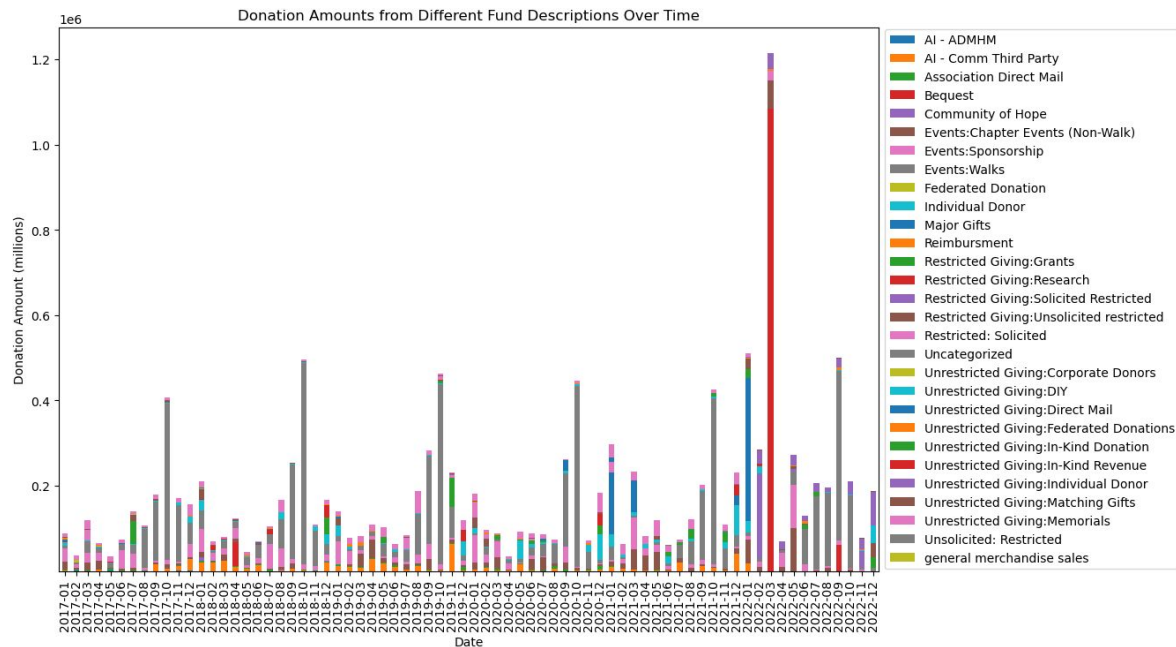

- Number of married individuals & families
- Number of veterans
- Number of nonprofits
- Population

## Donation Trends by Campaign

Statistics of the top 10 fund descriptions with the highest total donations

Fund Description	Minimum	Median	Maximum	Count	Sum	Mean
Events:Walks	1.0	50.0	50000.0	43400	5410820.0	124.67
Events:Sponsorship	25.0	2500.0	50000.0	384	1256504.0	3272.14
Bequest	57000.0	60674.0	1083782.0	3	1201456.0	400485.33

Unrestricted Giving:Individual Donor	0.0	100.0	10000.0	1332	312690.0	234.75

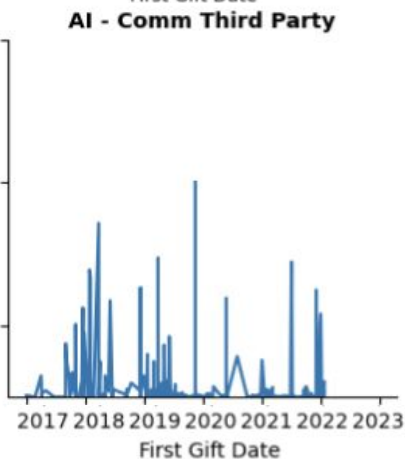

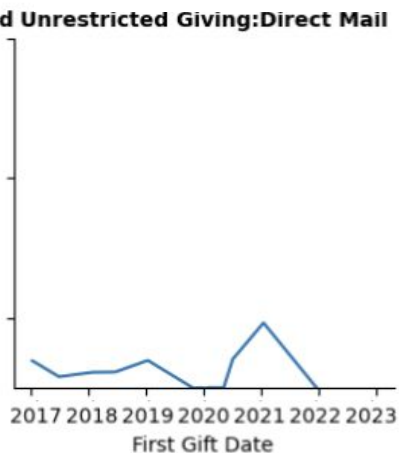

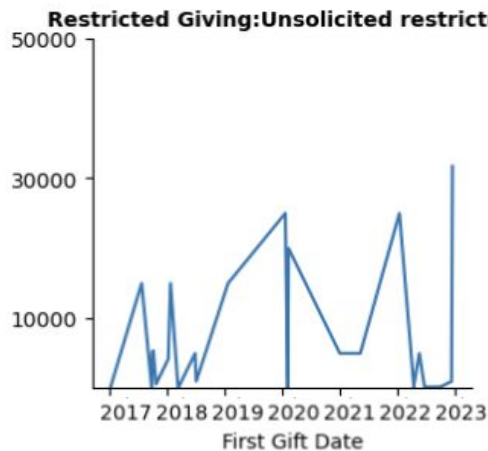

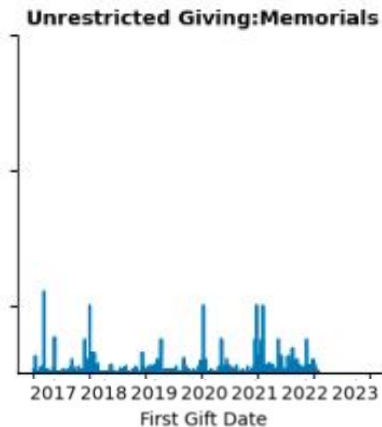

## Donation Trends by Campaign

Donations peak every year in October (from Walks, Restricted & Uncategorized events).

Exception:

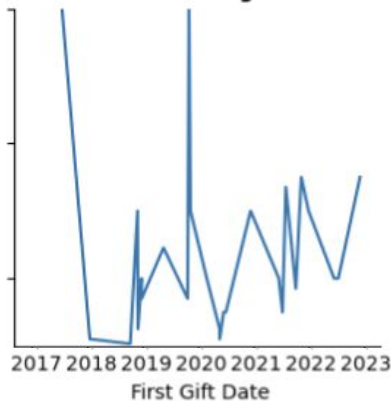

- Jan 2022
  - Spike in AI-ADMHM, Major gifts, Direct Mail
- March 2022
  - Spike in Bequest, Research, In-Kind Revenue

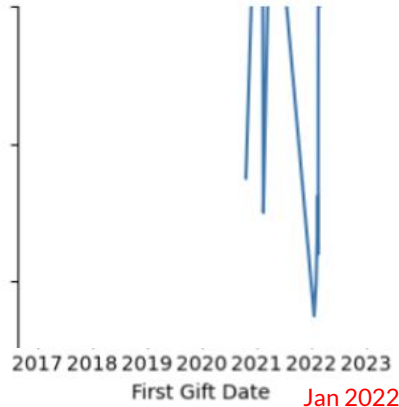

**Restricted: Solicited**

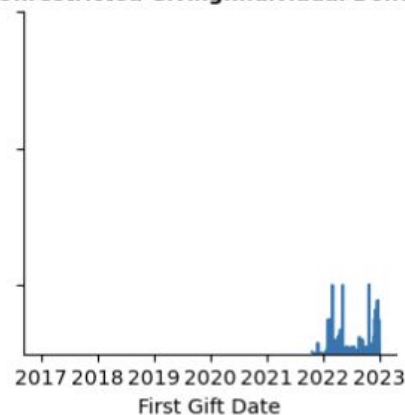

**Restricted Giving:Grants**

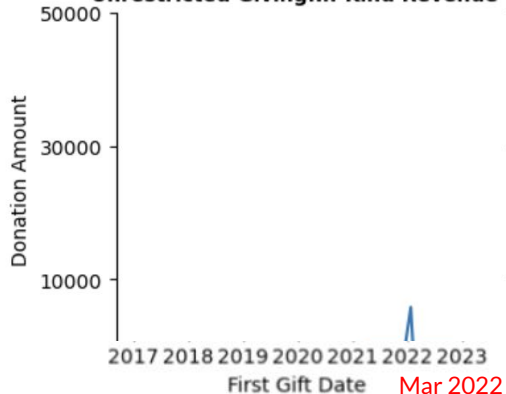

**Major Gifts**

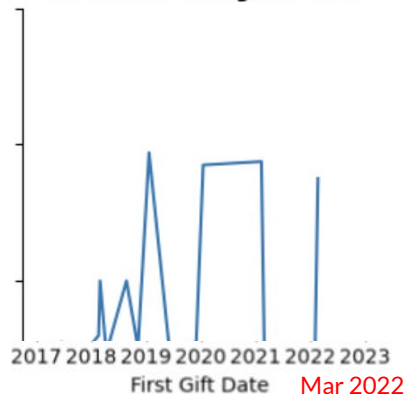

**Unrestricted Giving:Individual Donor**

**Unrestricted Giving:In-Kind Revenue**

**Restricted Giving:Research**

## Visualizations of different Campaign Strategies

## Donor Retention by Event Type

## Retained Donor by Age

Retained median age: **60**

Not retained median age: **63**

## Donation Amount by Gender

Small: Bottom 10% of donors

**\$0-\$20**

Medium: Middle 80% of donors

**\$20-\$250**

Large: Top 10% of donors

**\$250-\$1083782**

## Donation Category by Gender

## Donation Amount by Payment Type

Small: Bottom 10% of donors

**\$0-\$20**

Medium: Middle 80% of donors

**\$20-\$250**

Large: Top 10% of donors

**\$250-\$1083782**

## Data-driven recommendations

- When it comes to increased veteran presence, ALS should focus on Harris County, Bexar County, and Tarrant County in Texas
- ALS Texas should target the \$35-65k income range since it prevails in the cities donating the most
- Direct mail is one of the best methods of retaining donors
- Collecting more quantitative data (e.g. Age/Gender) can improve donor retention prediction models
- Employ county-specific demographic datasets to enhance donor retention prediction (e.g. number of married individuals, number of veterans)
